

User Manual

SupaNeighbour — Parse&Co

Version: 2.1

Date: September 2026

Author: Michelle W Njoroge (UI Engineer/Designer) & Blessing Gibendi(Team Lead)

This revision adds Section 11: Admin Dashboard (Moderation Website), including the Trust Graph and flagged endorsement tools (Section 11.4) and Admin Applications (Section 11.5), plus the Apply to Be an Admin option on the Profile screen (Section 7.9).

1. Introduction

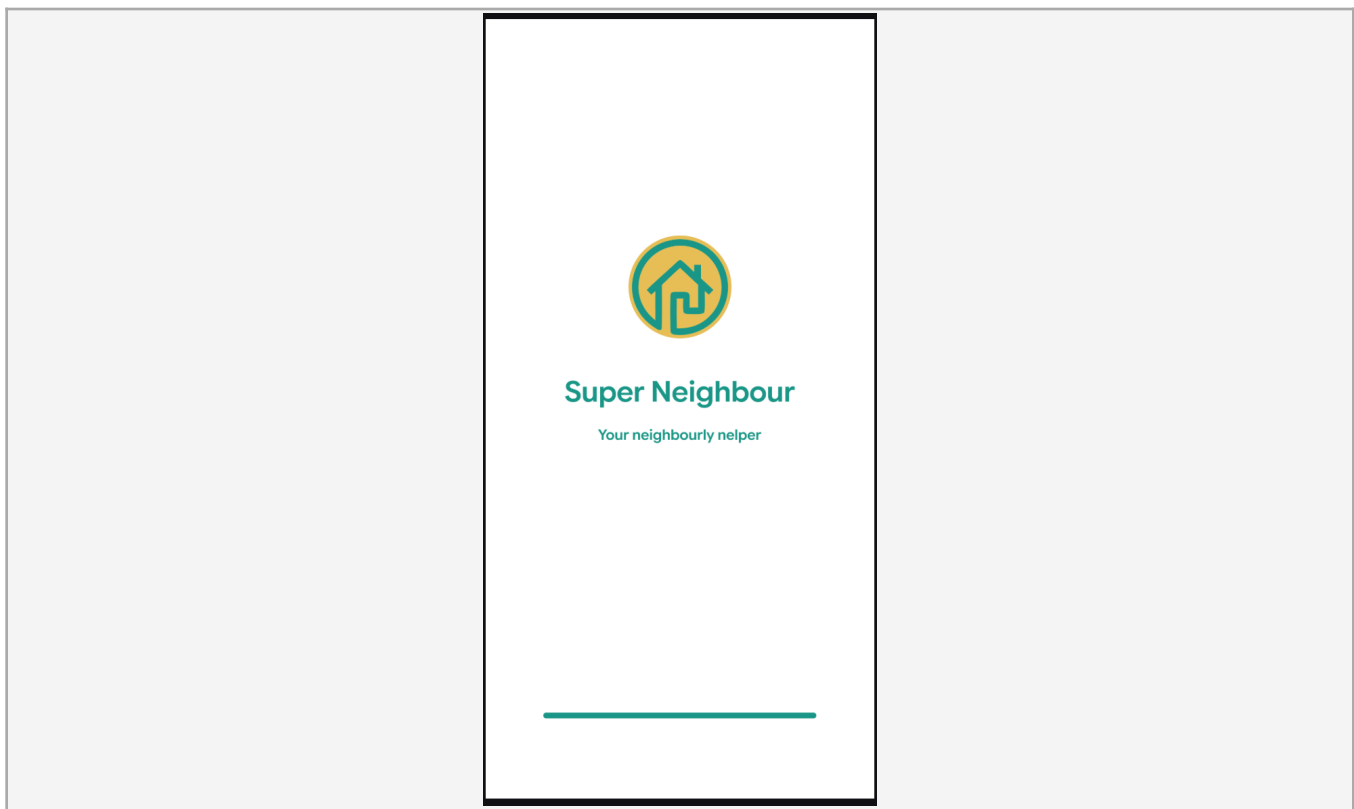

Welcome to SupaNeighbour! This user manual will guide you through the key features of the application, helping you get the most out of your neighbourhood community platform.

SupaNeighbour connects residents within the same neighbourhood by enabling them to request and provide short-term assistance for small household tasks. Whether you need help with plant care, pet feeding, bin collection, package collection, or home check-ins, SupaNeighbour makes it easy to find trusted neighbours willing to help.

2. Getting Started

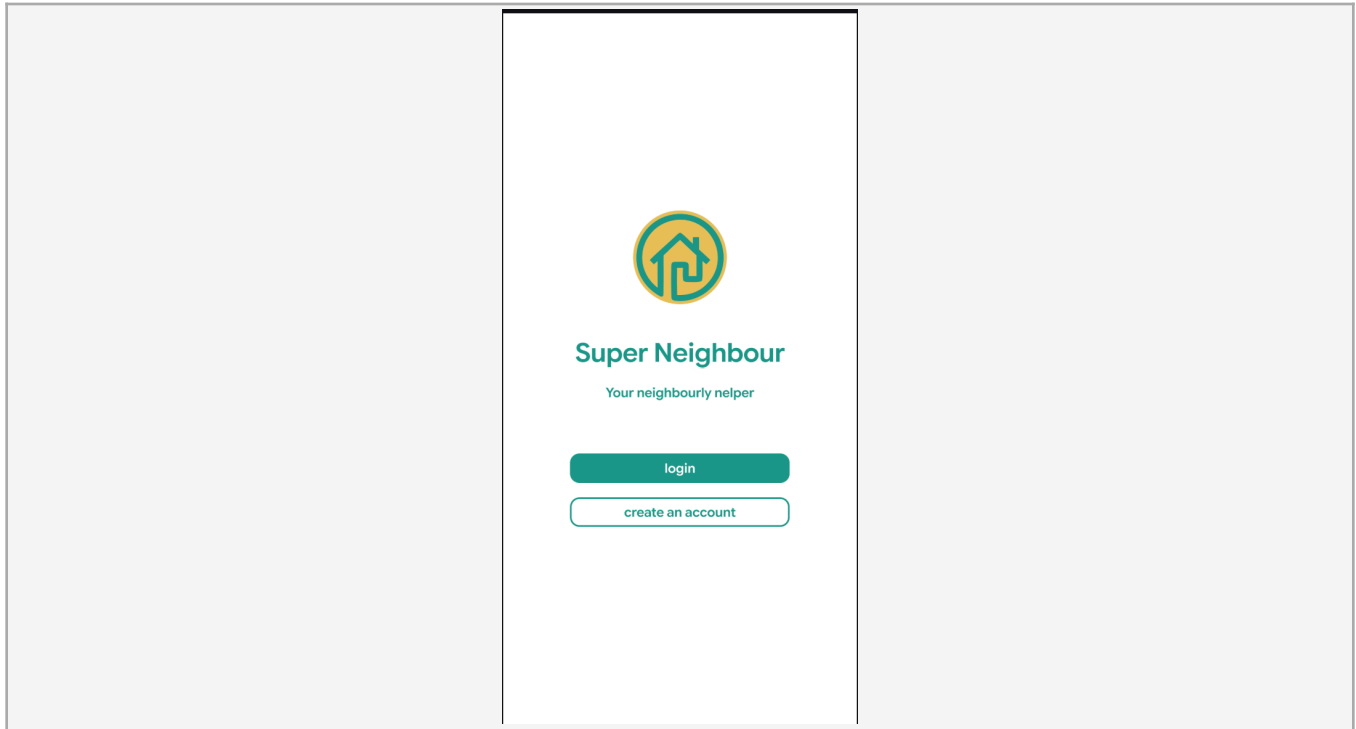

2.1 Creating an Account

1. Open the SupaNeighbour app where you will be greeted by the splash page before being directed to the welcome screen

Splash screen

2. Tap “Create Account” on the welcome screen

Login/Signup splash screen

3. Enter your Email Address and create a password (minimum 8 characters with a mix of letters, numbers, and special characters), then tap “Sign Up”

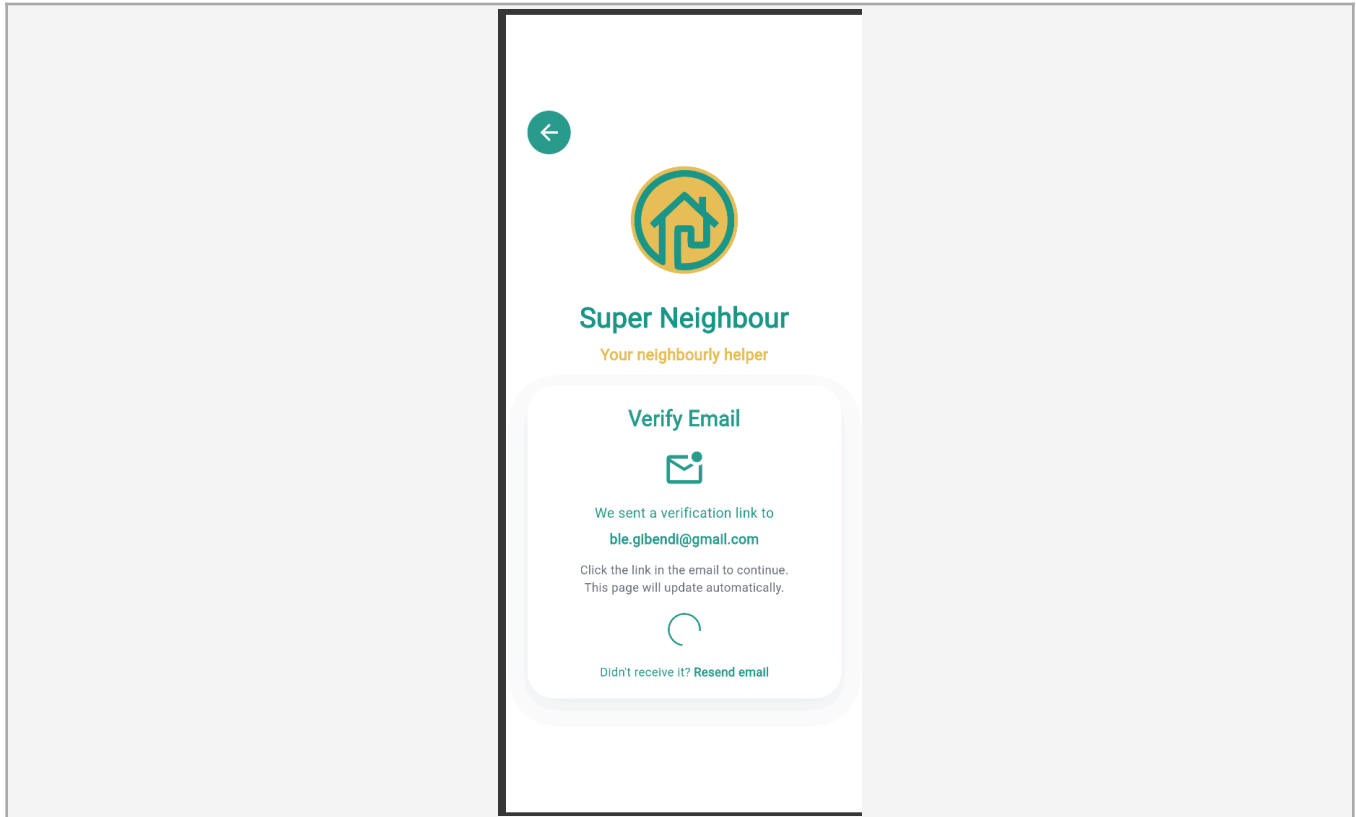

The image shows the "Sign Up" screen of the "Super Neighbour" app. It features the same logo and branding as the splash screen. Below the branding, the title "Sign Up" is centered. There are three input fields: "Email" with the text "ble.gibendi@gmail.com", "Password" with masked characters "*****" and an eye icon to toggle visibility, and "Confirm password" also with masked characters and an eye icon. A solid green "Sign up" button is positioned below the fields. At the bottom, there is a link that says "Already a neighbour? Login". The form is enclosed in a white rounded rectangle with a subtle shadow, set against a white background within a grey frame.

Sign up screen

4. Check your inbox for a verification email and click the link inside it to confirm your email address.

Note: Don't see it? Verification emails sometimes land in your Spam or Junk folder — check there if it hasn't arrived within a few minutes.

Note: This step now uses an email verification link rather than an OTP code — the screenshot below has been updated to match.

Sign up - confirm verification screen

6. Once your email is verified, you'll be taken to finish setting up your profile. Enter the remaining details:

- First and Last Name — How you'll be known in the community
- Birthday and Gender
- Residential Address - to match you to the needed neighbourhood
- Phone Number
- UserName

The image shows a mobile application screen for the 'Other Details' step of a sign-up process. At the top left, there is a green circular button with a white left-pointing arrow. Below this is a circular logo featuring a stylized house icon in green and yellow. The title 'Other Details' is displayed in a bold, teal font, followed by the subtitle 'Almost there!' in a smaller, grey font. The form contains two input fields: the first is labeled 'Phone Number' and contains the placeholder text 'Enter your phone number'; the second is labeled 'Username' and contains the placeholder text 'Enter a unique username'. At the bottom of the form is a large, rounded green button with the text 'Finish Profile' in white. The entire form is set against a white background with a subtle shadow, which is centered within a larger grey rectangular frame.

Sign up - other details screen

1. Once these details are submitted, your account is fully set up and you'll land on the Home screen (see Section 3).

Forgot your password?

- Tap “Forgot Password” on the login screen
- Enter your email and click on the ‘Send Reset Link’ button

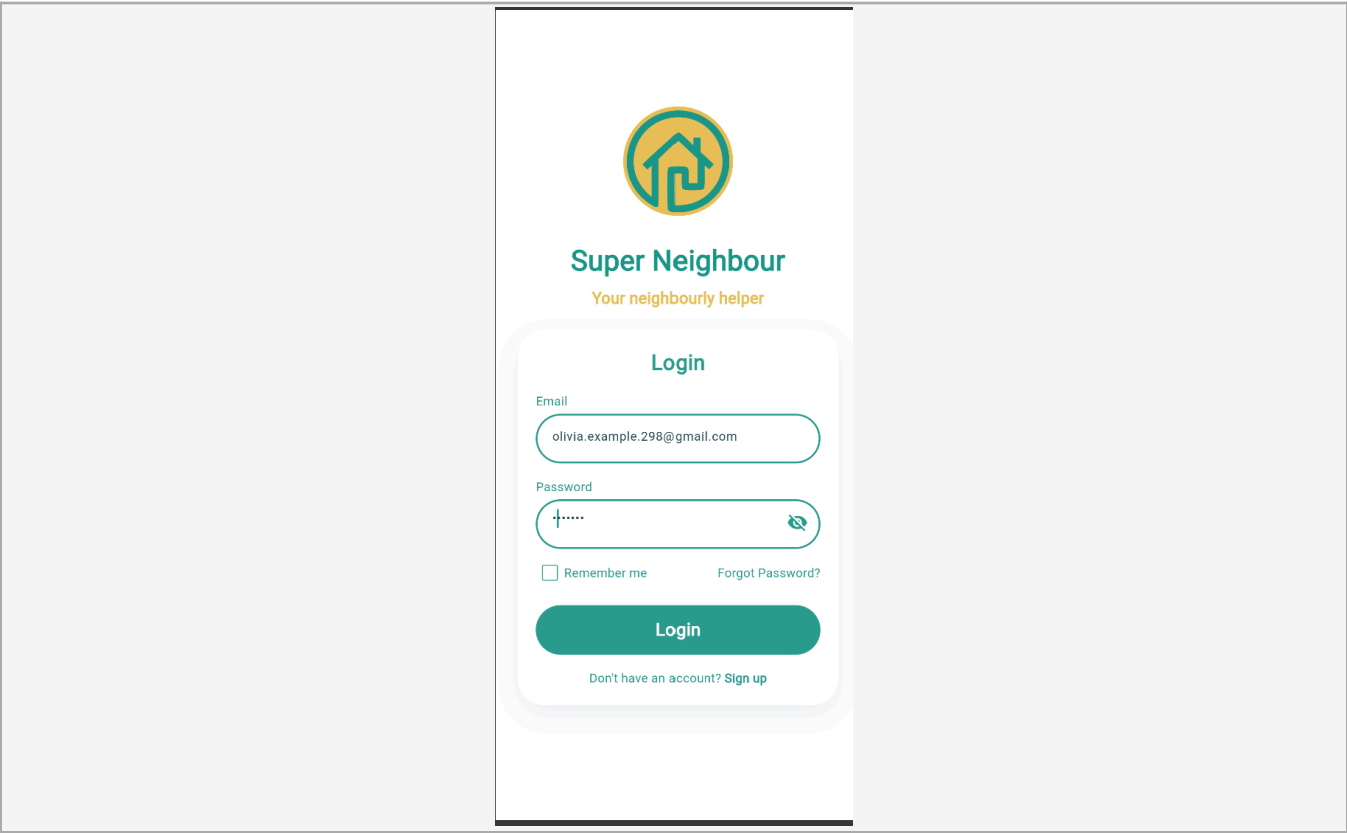

Forgot password screen

- A reset link will be sent to your email, which when clicked will prompt you to enter a new password.

2.2 Logging In

1. Open the app

Login screen

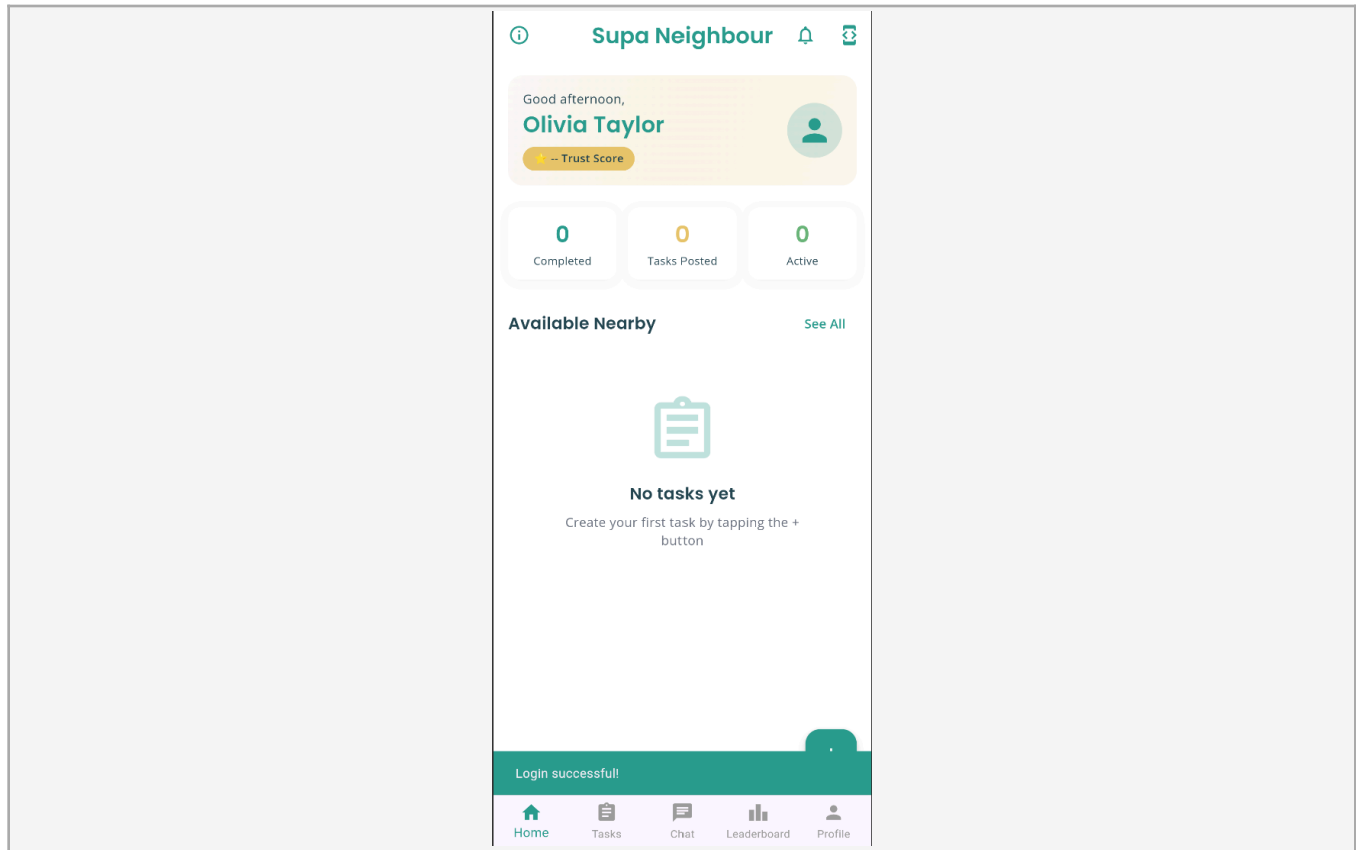

1. Enter your Email and Password
2. Tap “Login”
3. If you've forgotten your password, tap “Forgot Password” and follow the reset instructions (see Section 2.1)

3. Home Screen

Once you're signed in — whether for the first time after registering, or on a return visit — you land on the Home screen, your dashboard for everything happening in your neighbourhood.

Element	What It Does
Welcome section	Displays your name and trust score
Stats cards	Shows Helps Given, Tasks Posted, and Active Tasks

Available Nearby	Shows tasks from neighbours that you can help with
+ Button	Create a new task
See All	View all available tasks

Home screen

To create a task, tap the + Button:

1. Tap the + Button on the Home screen
2. Fill in your task details (category, description, timing, and any other requirements)
3. You can also enable your location to match you to needed helpers more accurately
4. Submit the task — it will now appear under the Posted tab of the Tasks screen (see Section 4.1), where neighbours can find and accept it

← **Create Task**

Instructions

Provide details to help the helper...

Post Task

Create task screen

To view a task, tap on any task card to see full details and instructions. To see everything at once, tap “See All” — this takes you to the Tasks screen (see Section 4).

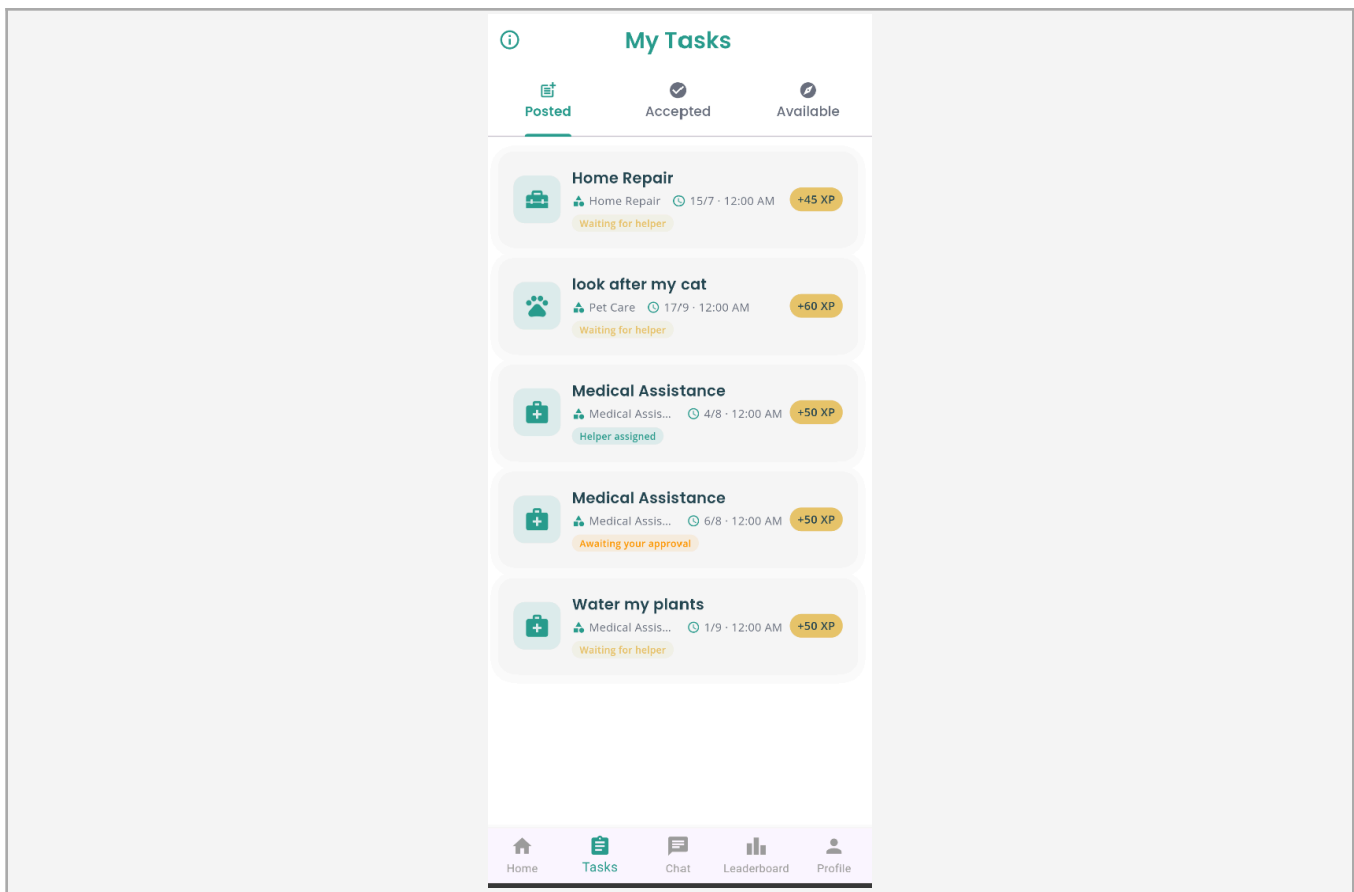

To refresh the list, pull down from the top of the screen.

4. Tasks Screen

The Tasks screen helps you manage all your tasks in one place. It has three tabs:

4.1 Posted Tab

Shows tasks you have created — including any you just posted from the Home screen.

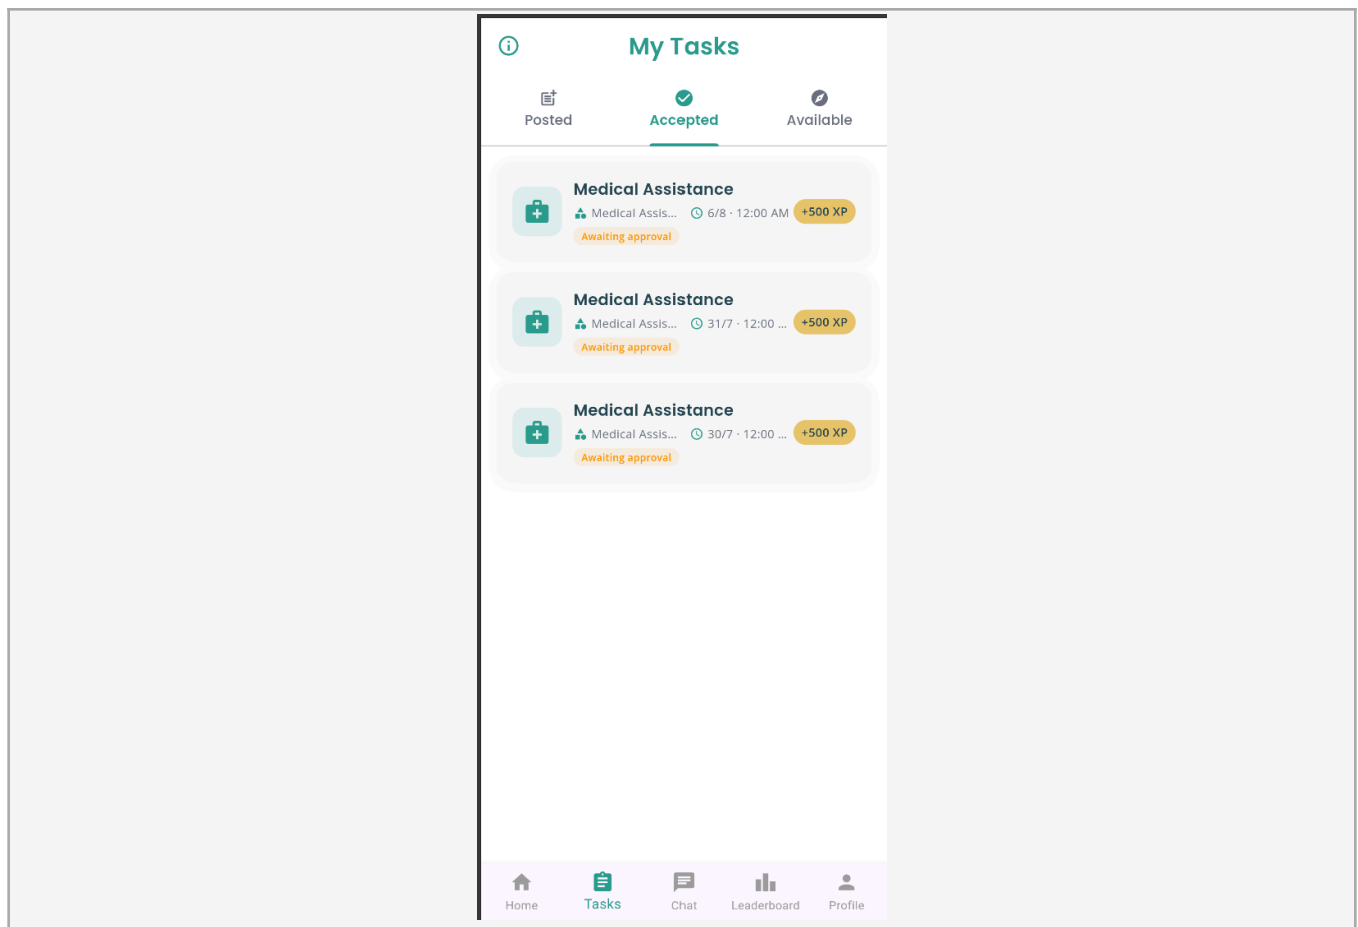

Posted tasks tab

Task Statuses

1. **Waiting for Helper** – Task has been posted and is waiting for a helper to accept it.
2. **Helper Assigned** – A helper has accepted the task and has been assigned to complete it.
3. **In Progress** – The helper is currently working on the task.
4. **Waiting on Your Approval** – The helper has finished the task and is waiting for the poster to review and approve it.
5. **Completed** – The task has been reviewed and approved by the poster and is officially complete. – The task has been reviewed and approved by the poster and is officially complete.

4.2 Accepted Tab

Shows tasks you have accepted to help with.

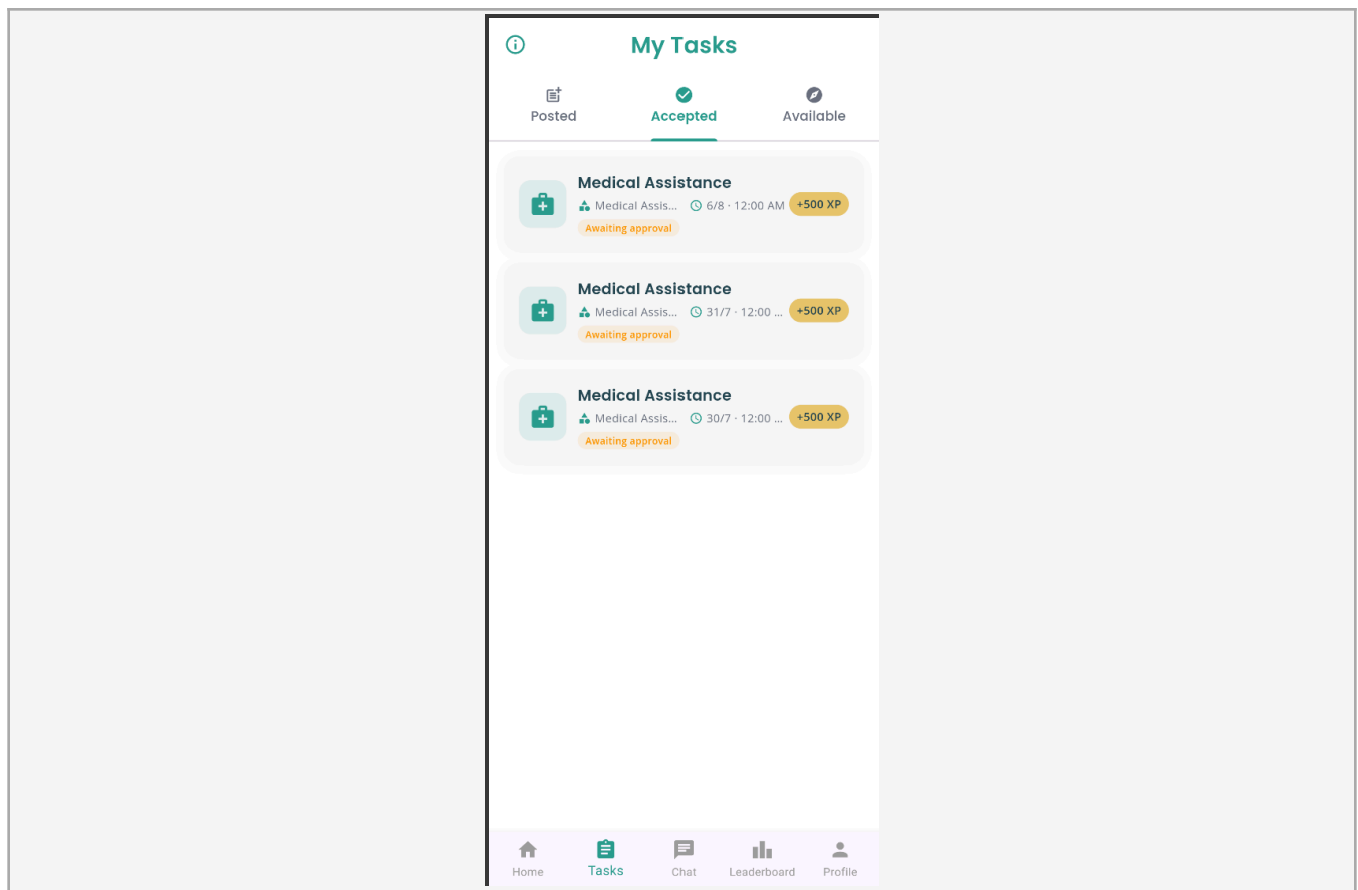

Accepted tasks tab

From here you can:

- Start a task — Tap “Start” when you begin working on the task
- Mark as complete — Tap “Complete” when you've finished the task
- Submit for approval — After completion, the requester will review your work
- View task details — Tap any task to see full information

4.3 Available Tab

Shows tasks from neighbours that you can help with.

Available tasks tab

From here you can:

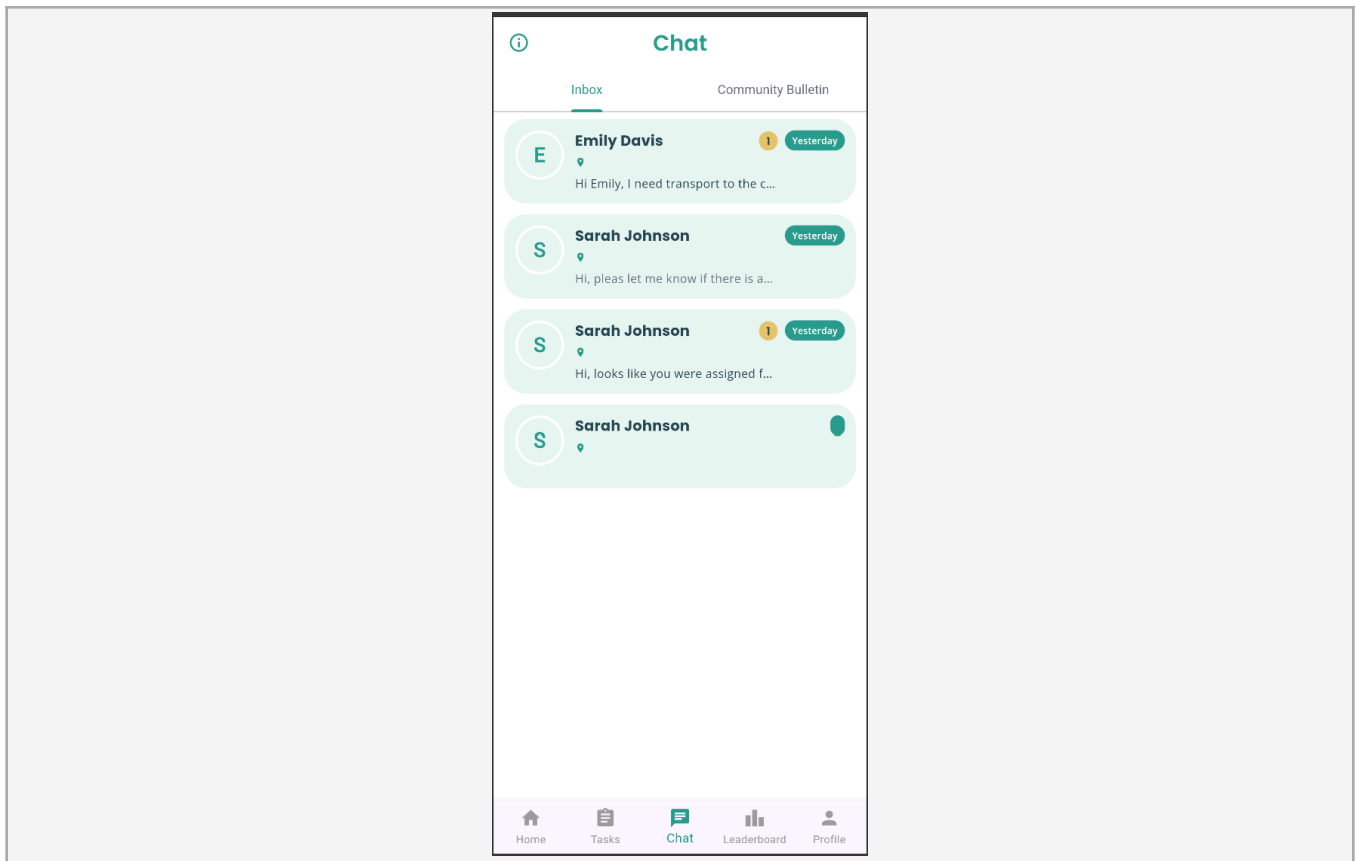

- Accept a task — Swipe right on a task card or tap and select “Accept”
- Pass on a task — Swipe left on a task card or tap and select “Pass”
- View task details — Tap any task to see full information before deciding

5. Chat Screen

The Chat screen helps you communicate with neighbours and stay informed about your community.

5.1 Inbox Tab

Shows your direct messages with neighbours.

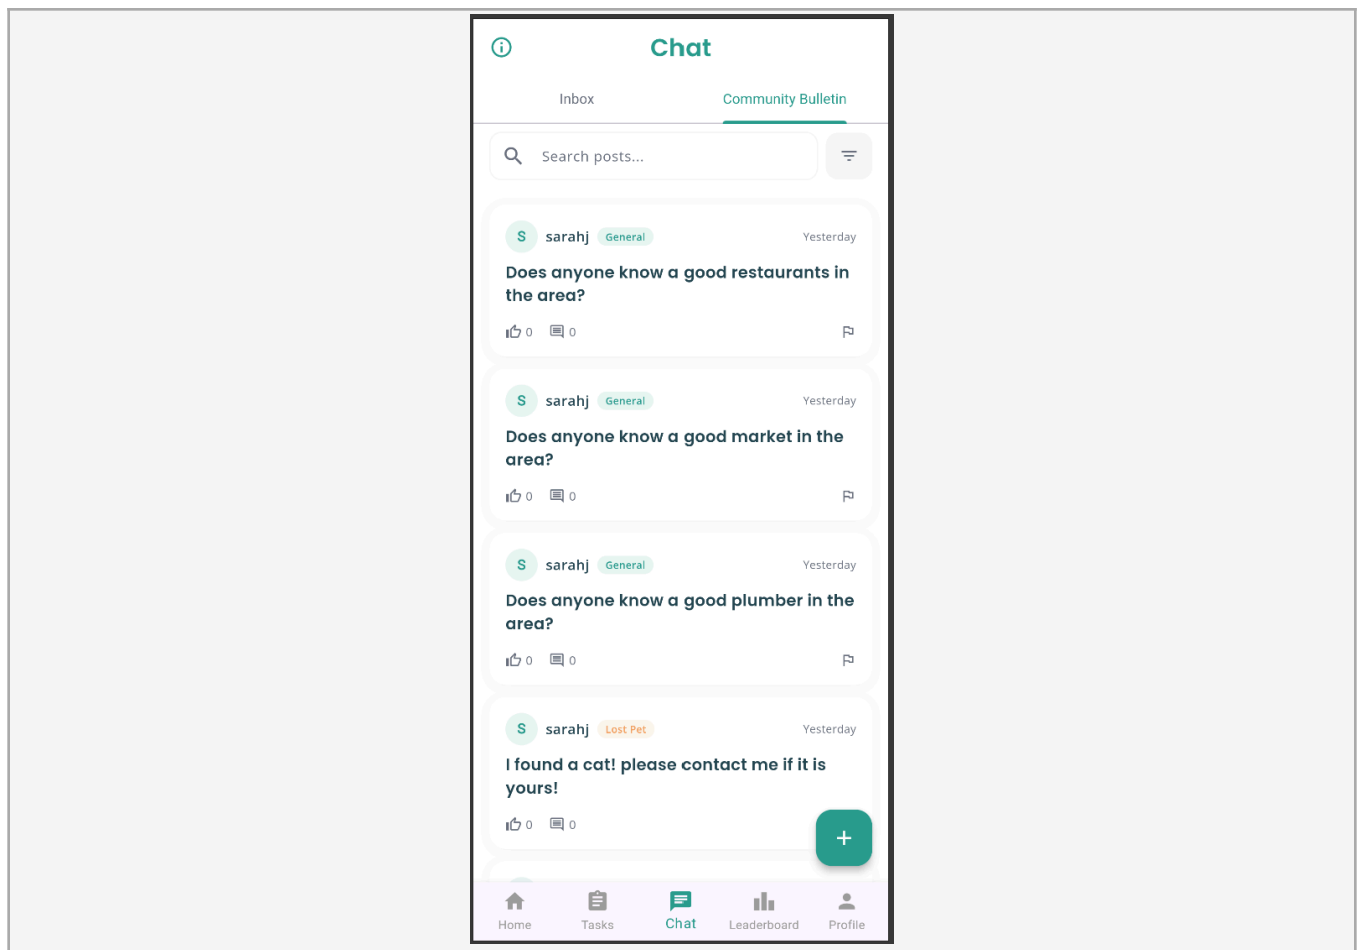

Chat inbox

- Tap a chat to open it and view messages
- Send messages — Type your message and tap the send button
- Share images — Tap the attachment icon to send photos
- Real-time updates — Messages appear instantly

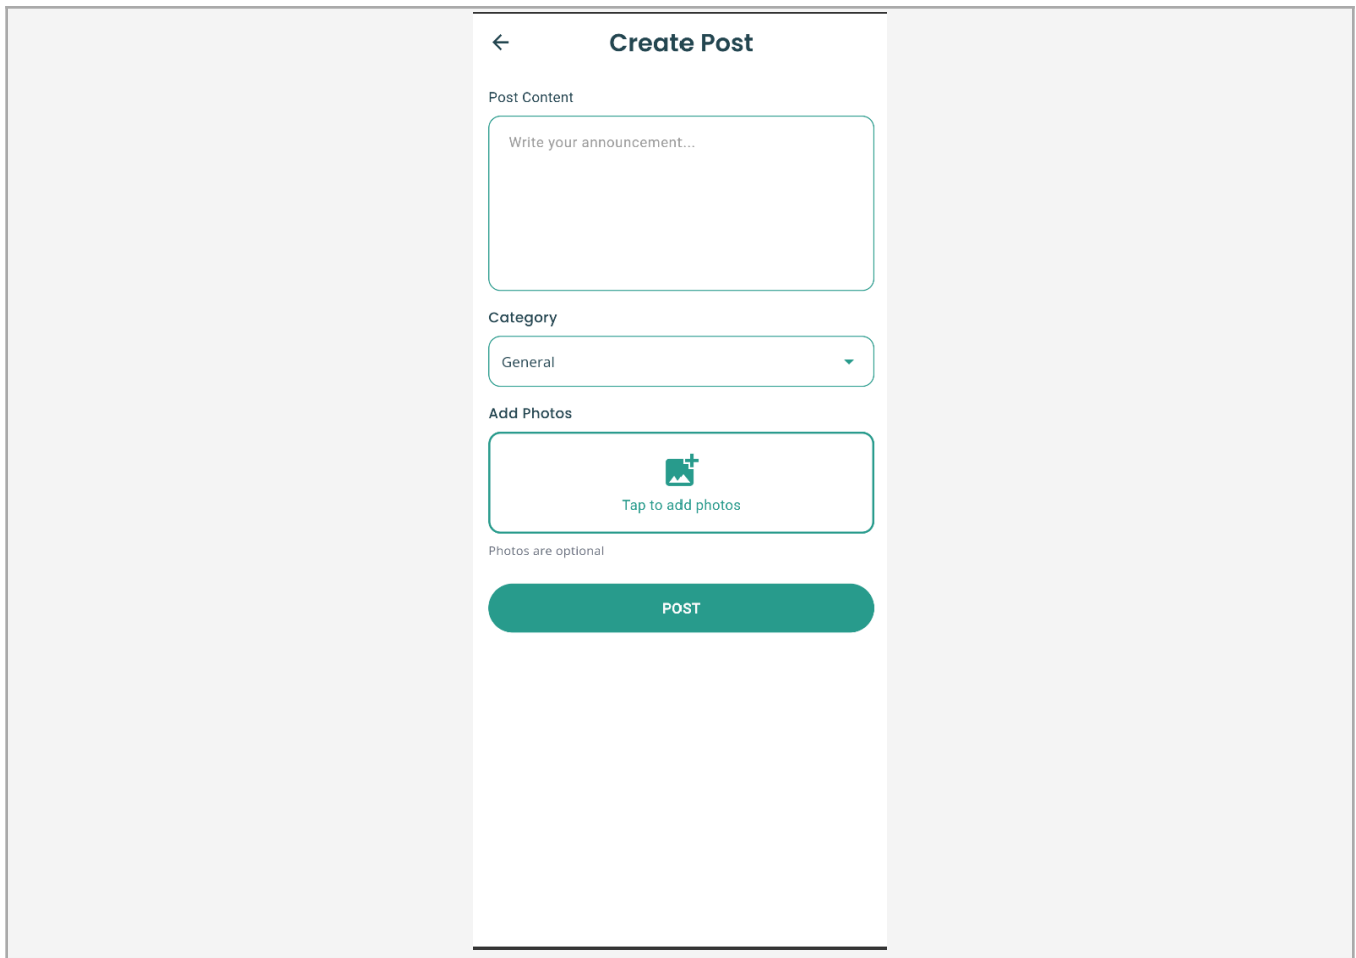

5.2 Community Bulletin Tab

Shows community announcements and updates.

Bulletin board feed

- View posts — Browse announcements from neighbours
- Create a post — Tap the + button to share news or ask for help

A mobile app screen titled "Create Post" with a back arrow on the left. It features a text input field for "Post Content" with placeholder text "Write your announcement...". Below this is a "Category" dropdown menu currently set to "General". Underneath is an "Add Photos" section with a photo icon and the text "Tap to add photos". A small note "Photos are optional" is below the photo section. At the bottom is a large green button labeled "POST".

← **Create Post**

Post Content

Write your announcement...

Add Photos

Tap to add photos

Photos are optional

POST

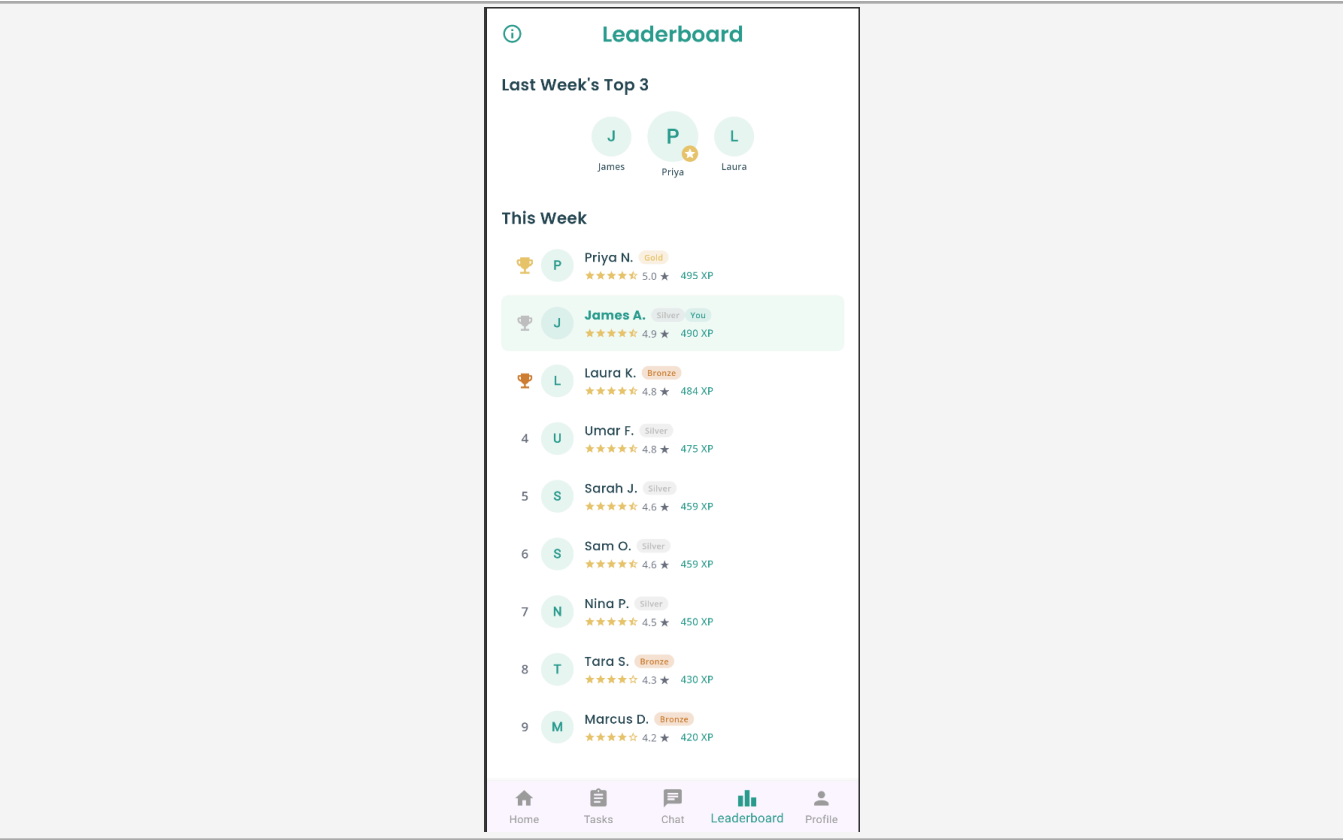

Create bulletin post screen

- Filter posts — Use the filter button to view specific categories
- Search posts — Use the search bar to find specific content
- React to posts — Tap “Helpful” to show appreciation for a post
- Report inappropriate content — Tap the flag icon to report a post

6. Leaderboard Screen

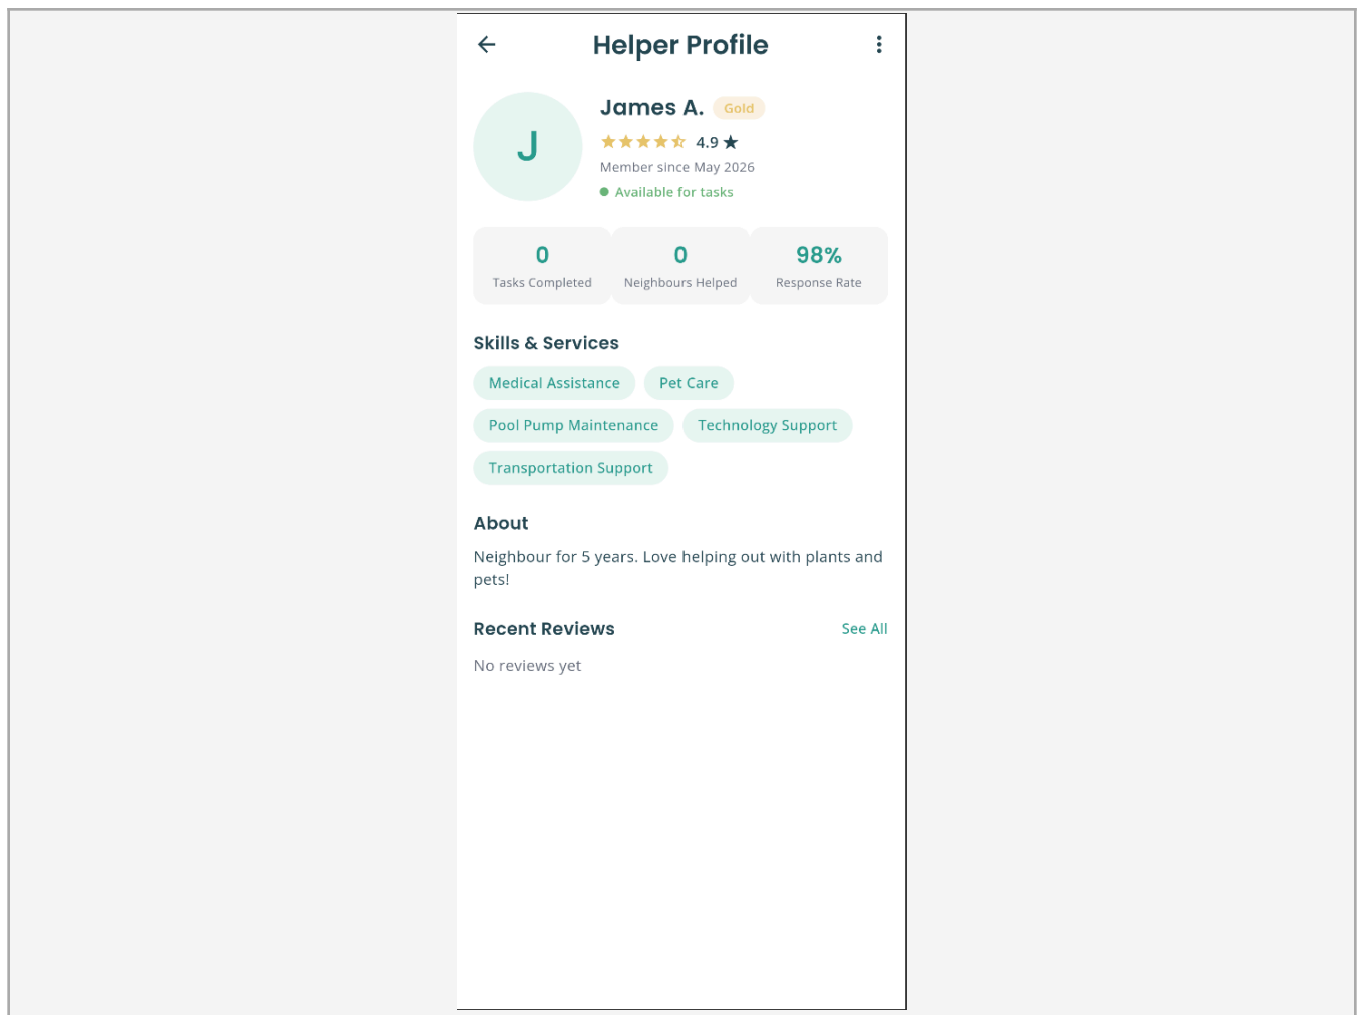

The Leaderboard shows the top helpers in your neighbourhood.

Element	What It Shows
Last Week's Top 3	The three highest-ranked helpers from the previous week
This Week	The current week's rankings
Your Rank Card	Your current position and progress to the next rank

Leaderboard screen

To view a helper's profile: Tap on any helper in the list.

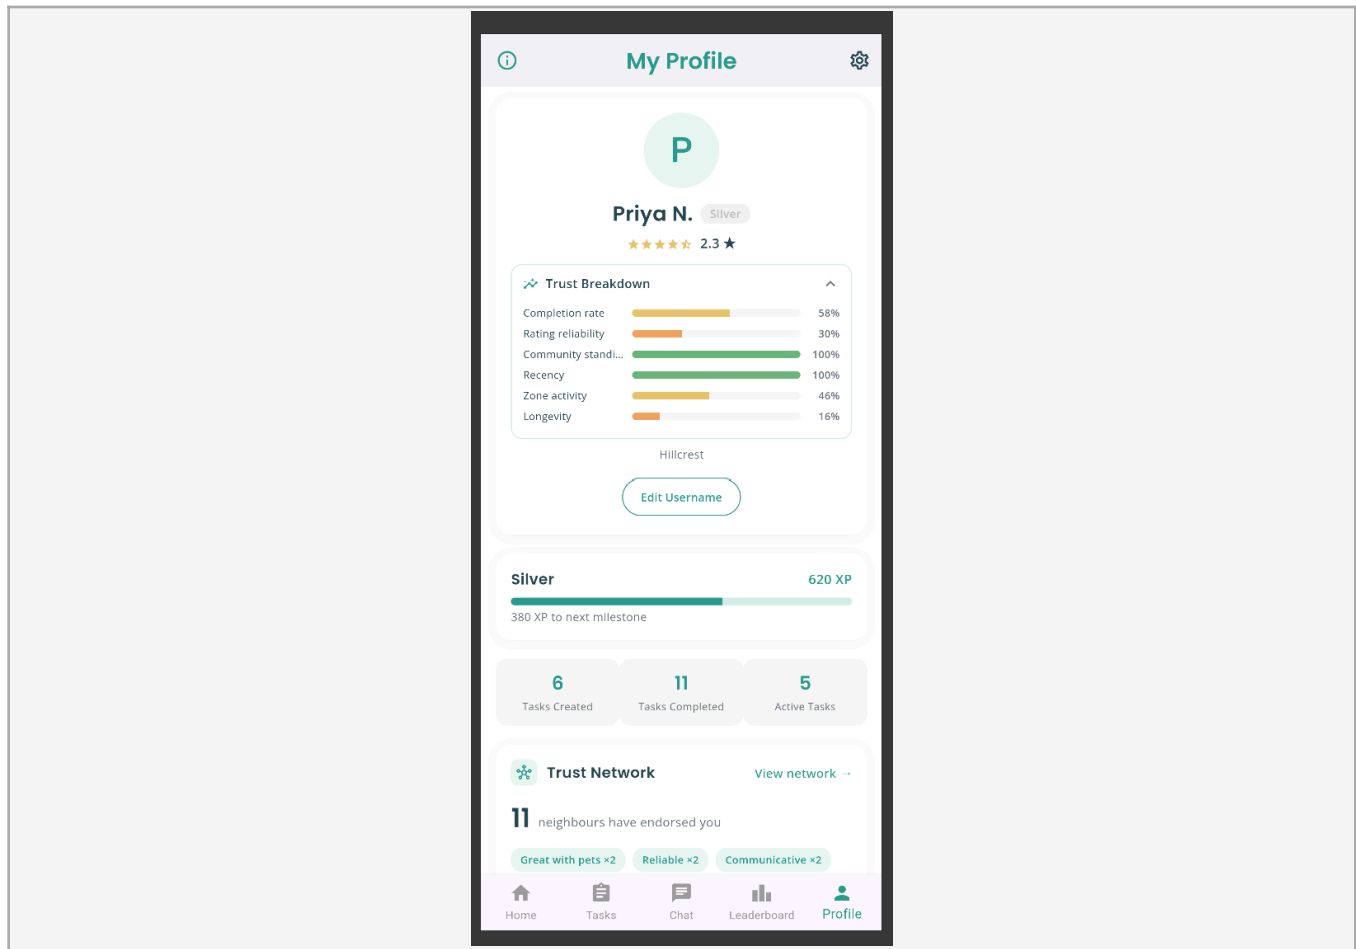

Helper profile screen

How rankings work:

- Gold — Trust score ≥ 4.8
- Silver — Trust score ≥ 4.5
- Bronze — Trust score ≥ 4.0

7. Profile Screen

The Profile screen displays your community standing and allows you to manage your account.

Profile screen

7.1 Your Profile Card

- Display Name - Your name in the community
- Level - Your current helper level (Bronze, Silver, or Gold)
- Trust Score - Your rating based on completed tasks and reviews
- Neighbourhood - Your registered neighbourhood zone

7.1.1 Trust Breakdown

Tap the **Trust Breakdown** panel on your profile card to see what makes up your Trust Score. Each factor is shown as a percentage bar, so you can see where you're strong and where you can improve. Tap the arrow again to collapse it.

- **Completion Rate:** How many of the tasks you've accepted you have seen through to completion.
- **Rating Reliability:** How consistent and dependable your ratings are. A steady record of reviews from different neighbours counts for more than a few isolated ones.
- **Community Standing:** How you are regarded by other neighbours, including endorsements from your Trust Network.
- **Recency:** How recently you've been active. Regular recent activity keeps this high.
- **Zone Activity:** How involved you are in your own neighbourhood zone, such as helping or requesting help nearby.
- **Longevity:** How long you've been part of the community. This grows gradually over time.

7.2 XP and Progress

- XP Points — Earned by completing tasks
- Progress Bar — Shows how far you are from the next level milestone

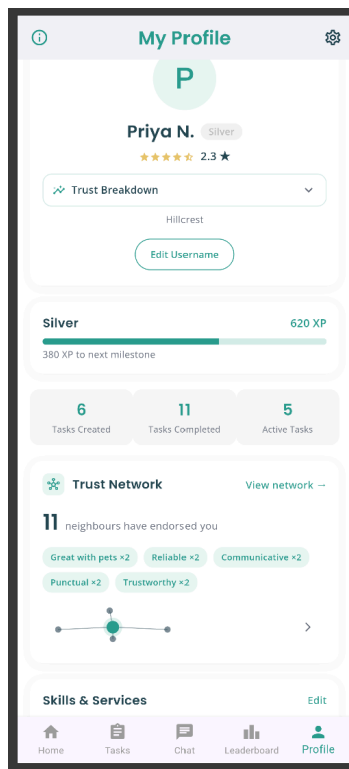

7.3 Stats

- Tasks Created — Number of tasks you've posted
- Tasks Completed — Number of tasks you've helped with
- Active Tasks — Tasks currently in progress

7.4 Trust Network

The Trust Network shows which neighbours have vouched for you and what they said about you. Endorsements are separate from task ratings, so they add a personal layer of trust on top of your Trust Score.

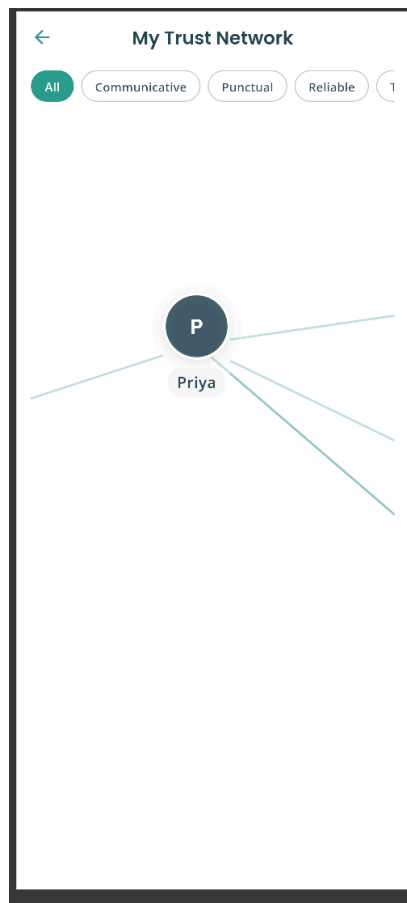

- **Endorsement count:** How many neighbours have endorsed you.
- **Endorsement tags:** The qualities neighbours have credited you with, each with a count (for example, *Reliable* x2). The tags are Great with pets, Reliable, Communicative, Punctual, and Trustworthy.
- **Network preview:** A small map of you and the neighbours connected to you. Tap it, or tap **View network** →, to open the full view.

7.4.1 My Trust Network screen

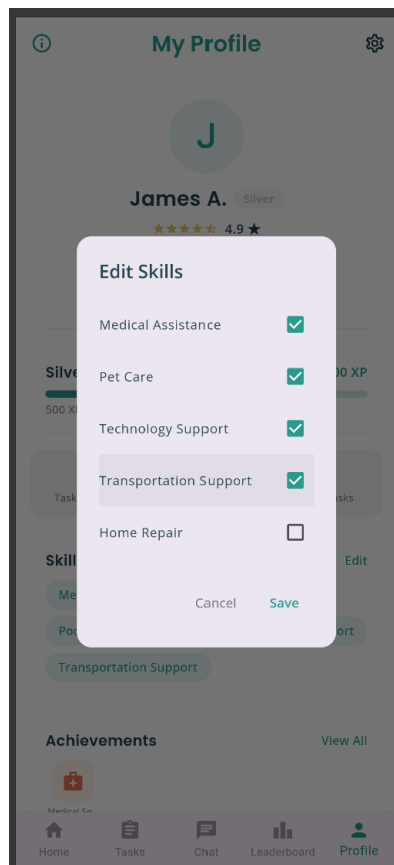

This screen shows your connections as a visual map, with you at the centre and a line to each neighbour who has endorsed you.

- **Filter by quality:** Use the chips along the top (All, Communicative, Punctual, Reliable, and so on) to show only the neighbours who endorsed you for that quality. Swipe the chips sideways to see the rest. **All** shows every connection.
- **Explore the map:** Drag to move around the network and see all of your connections.
- **Go back:** Tap the arrow in the top-left corner to return to your profile.

7.5 Skills & Services

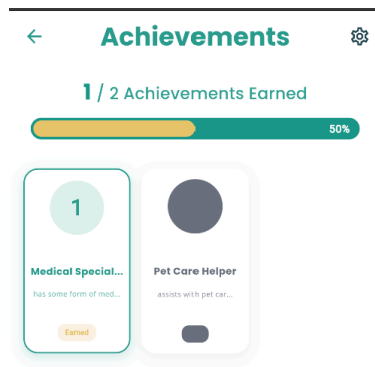

- View and edit your skills (Plants, Pets, Bins, Packages, etc.)
- Tap “Edit” to add or remove skills
- Skills help neighbours find you for relevant tasks

Edit skills screen

7.6 Achievements

- View earned badges and achievements
- Tap “View All” to see all available achievements

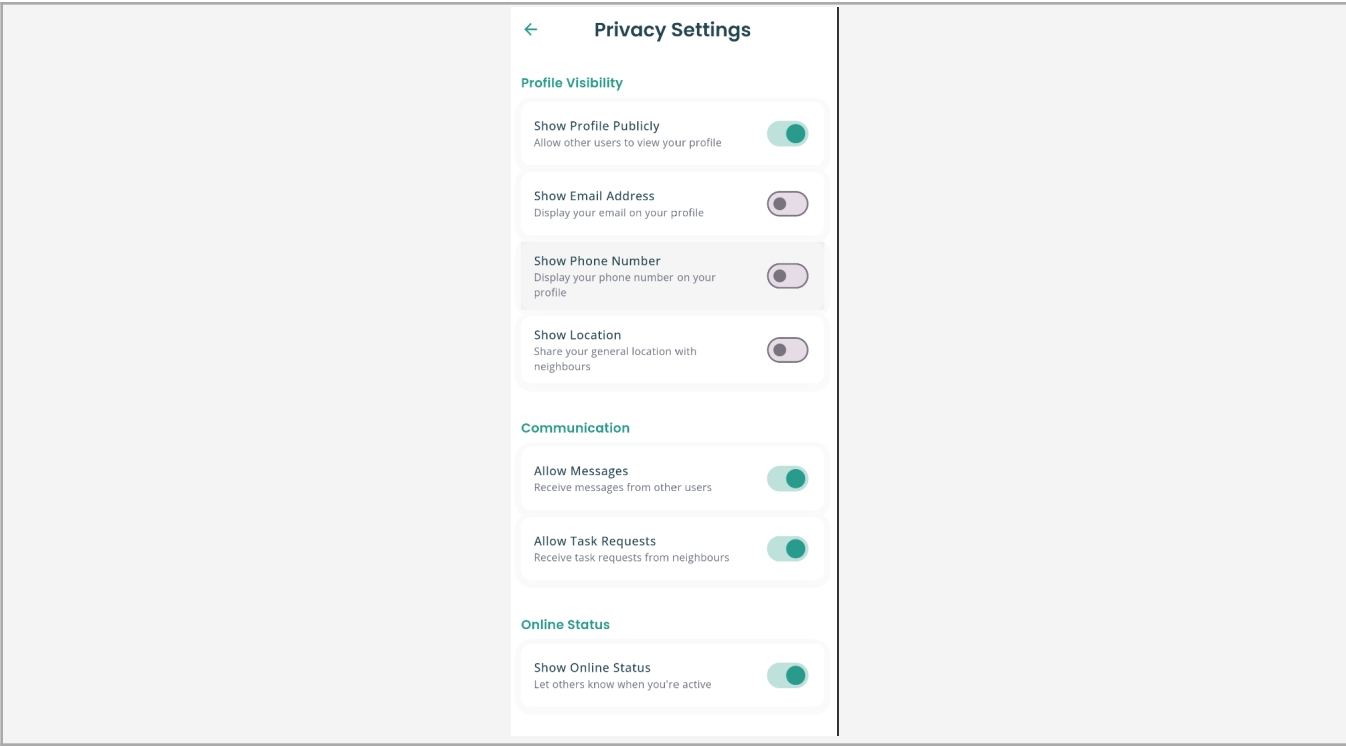

Achievement screen

7.7 Recent Tasks

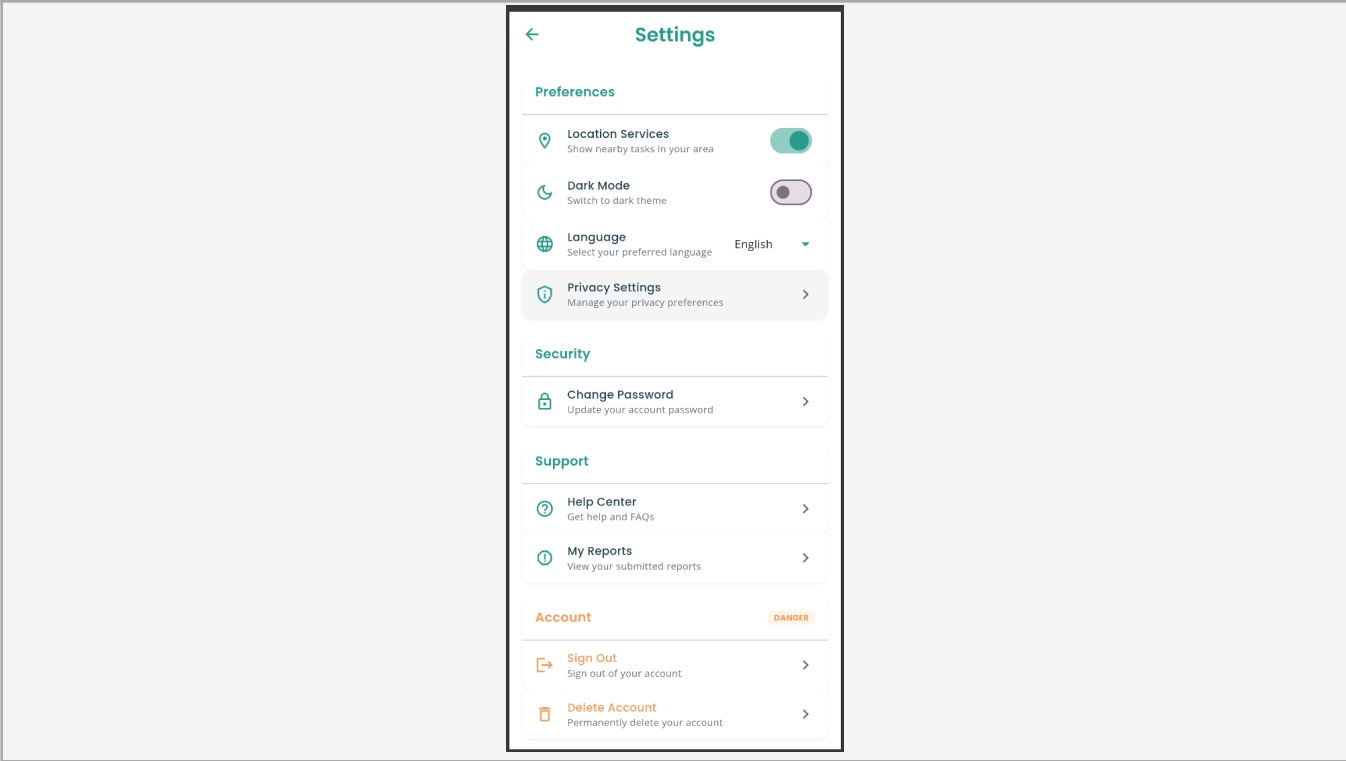

- Shows your most recent completed tasks
- Each task shows the XP earned

7.8 Privacy Settings and Settings

- Manage your privacy preferences
- Control location and data sharing

Privacy settings screen

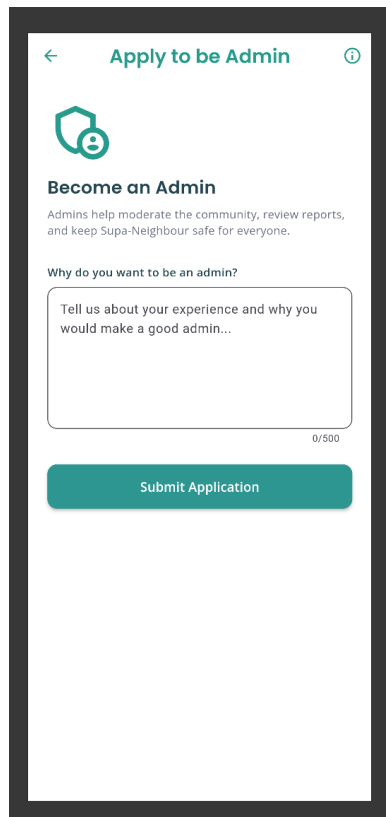

Settings screen

7.9 Apply to Be an Admin

If you would like to help moderate the community, review reports, and keep SupaNeighbour safe for everyone, you can apply to become an admin directly from your Profile screen.

- Tap the Apply for Admin button on your Profile screen to open the Apply to be Admin screen
- In the box under "Why do you want to be an admin?", tell us about your experience and why you would make a good admin (up to 500 characters — the counter under the box shows how many you have used)
- Tap "Submit Application" to send your application
- Tap the back arrow in the top-left corner if you change your mind and want to return to your profile

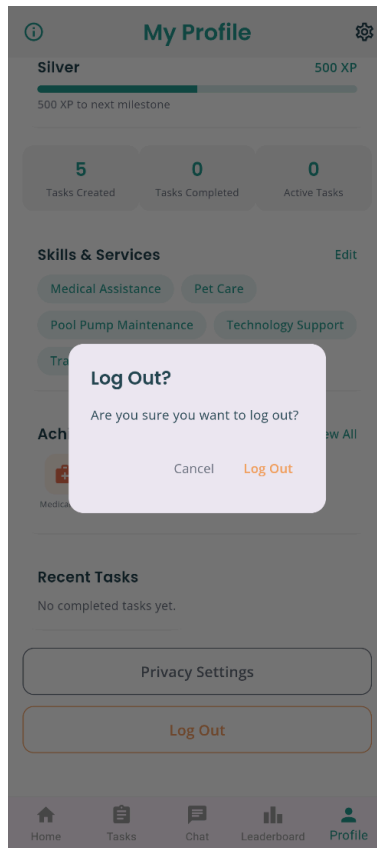

Apply to be Admin screen

Your application is reviewed by a super admin, who can approve or reject it (see Section 11.5).

7.10 Logout

- Tap “Logout” to sign out of your account
- It will proceed to ask for confirmation

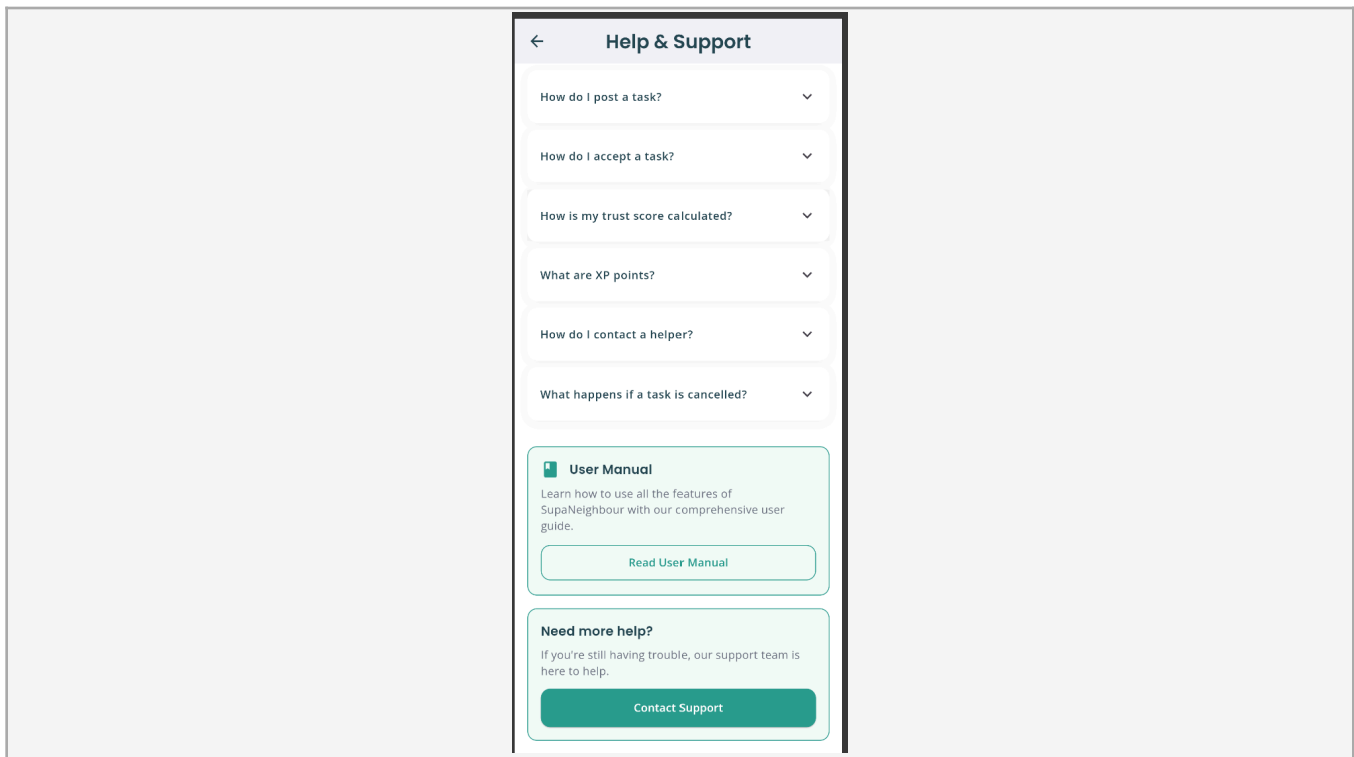

Help and support screen

8. Help & Support

Access help at any time by:

- Tapping the info icon on any main screen
- Going to Profile → Settings → Help Center

Help and support screen

The Help Menu includes:

- Frequently Asked Questions — Common questions and answers
- User Manual — This document
- Contact Support — Reach out to our support team

9. Troubleshooting

9.1 Can't Log In

- Check that your email and password are correct
- Use the “Forgot Password” option to reset your password

- Ensure you have a stable internet connection

9.2 Didn't Receive the Verification Email

- Check your Spam or Junk folder
- Make sure you entered your email address correctly during sign up
- Wait a few minutes, then check again before requesting a new one

9.3 Can't Find a Task

- Check the Available tab for tasks from neighbours
- Pull down to refresh the list
- Check your filter settings

9.4 Task Not Updating

- Pull down to refresh the screen
- Check your internet connection
- Try restarting the app

9.5 Chat Messages Not Sending

- Check your internet connection
- Ensure you're connected to a stable network
- Try restarting the app

10. Frequently Asked Questions

10.1 How do I earn XP?

You earn XP by completing tasks. The amount of XP varies based on the task difficulty.

10.2 How is my trust score calculated?

Your trust score is calculated based on completed tasks and ratings from other users.

10.3 What are the helper levels?

- Bronze — Trust score ≥ 4.0
- Silver — Trust score ≥ 4.5
- Gold — Trust score ≥ 4.8

10.4 Can I change my neighbourhood?

Yes — go to Profile → Privacy Settings and update your residential address.

10.5 How do I contact a helper?

Once a helper accepts your task, you can chat with them through the Chat tab.

10.6 Why did I get an email link instead of an OTP code during sign up?

SupaNeighbour verifies your email using a confirmation link rather than a one-time code — just click the link in the email we send you (check Spam if it's not in your inbox).

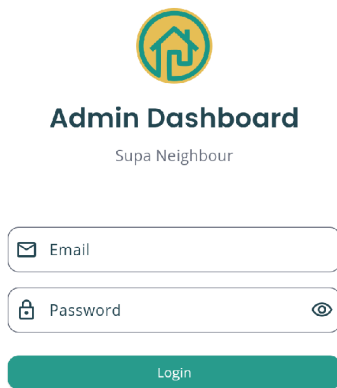

11. Admin Dashboard (Moderation Website)

The Admin Dashboard is Parse&Co's web-based moderation portal for SupaNeighbour. It is used by internal admins to monitor the community, review member reports, and take moderation action. It is a separate, browser-based application from the SupaNeighbour mobile app, but it shares the same visual identity and login credentials.

11.1 Logging In

Admins sign in with the same email and password they use for their SupaNeighbour account.

1. Open the Admin Dashboard in a web browser
2. Enter your Email and Password
3. Tap “Login”

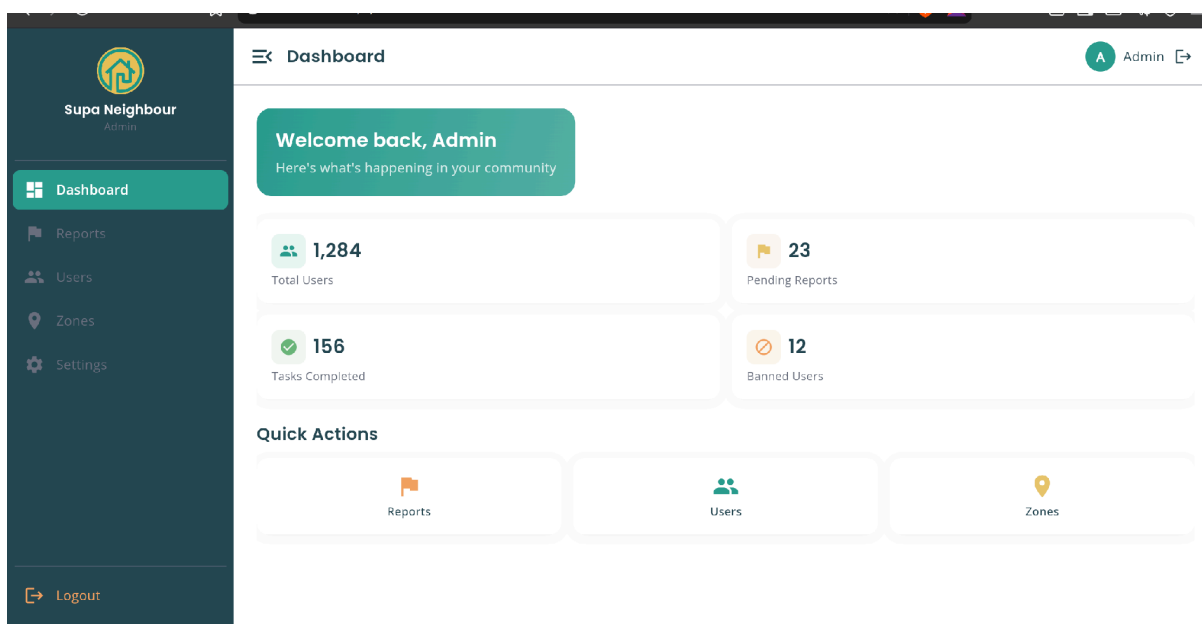

The image shows the Admin Dashboard login screen. At the top center is a circular logo with a green border and a yellow house icon. Below the logo, the text "Admin Dashboard" is displayed in a bold, dark font, followed by "Supa Neighbour" in a smaller, lighter font. The login form consists of two input fields: the first is labeled "Email" with an envelope icon on the left, and the second is labeled "Password" with a lock icon on the left and an eye icon on the right. Below these fields is a green "Login" button.

Admin Dashboard login screen

Note: Use the same credentials as your SupaNeighbour app account. If you can't remember your password, use the “Forgot Password” flow in the mobile app (see Section 2.1) before trying again here.

11.2 Dashboard

After logging in, admins land on the Dashboard — a high-level overview of what's happening across the SupaNeighbour community.

Dashboard overview

The Dashboard shows:

- Total Users — The total number of registered residents
- Pending Reports — Reports awaiting review
- Tasks Completed — Total tasks successfully completed across the platform
- Banned Users — The number of users currently banned

The Quick Actions section provides shortcuts straight to the Reports, Users, and Zones pages.

11.3 Reports Management

The Reports page is where admins review content and behaviour flagged by the community — including User, Post, Task, and Comment reports — and decide what action, if any, is needed.

11.3.1 Viewing Reports

The screenshot shows the 'Reports Management' interface for the 'Supa Neighbour' admin. The left sidebar contains navigation links: Dashboard, Reports (active), Users, Zones, and Settings, along with a Logout button. The main content area displays a summary of report counts: 11 Total, 7 Pending, and 0 Resolved. Below this is a search bar labeled 'Search by ID or reporter...' and two dropdown menus set to 'All'. A list of reports follows, each with a status tag (Reviewed, Assigned, Task Dispute), a brief description, the reporter's name (Anonymous), and the time since creation. Each report has 'View' and 'Review' buttons.

Report ID	Status	Description	Reporter	Time	Actions
#6	Reviewed	Task marked pending approval but quality was substandard	Anonymous	12d ago	View, Review
#18	Assigned	Item missing after task	Anonymous	8d ago	View, Review
#19	Assigned	Branch cutting job left unfinished	Anonymous	8d ago	View, Review
#20	Assigned	Requester disputes helper self-assessment	Anonymous	7d ago	View, Review

Reports Management — report list

At the top of the page, summary counters show the Total, Pending, and Resolved number of reports. From here you can:

- Search — Use the search bar to find a report by ID or reporter
- Filter — Use the filter dropdowns to narrow the list by report type (User, Post, Task, or Comment) and status
- Review a report — Tap “Review” on any report to open it and take action, or “View” to see it without acting

11.3.2 Reviewing a Report

Opening a report shows its full details: the type, reporter, the item reported, when it was created, and the reason given for the report.

The screenshot shows the detailed view of report #18 in the 'Reports Management' interface. The left sidebar is identical to the previous screenshot. The main content area shows the report's details under the 'Assigned' status. It includes fields for Report ID, Type, Reporter, Reported, Created, Reason, and Dispute Reason. Below the details is a 'Review & Action' section with dropdown menus for 'Violation Type' and 'Severity'. At the bottom are three buttons: 'Approve' (green), 'Dismiss' (grey), and 'Escalate' (orange).

Field	Value
Report ID	#18
Type	Task Dispute
Reporter	Anonymous
Reported	Task #16
Created	25/8/2026 · 18:22
Reason	Item missing after task
Dispute Reason	PROPERTY_DAMAGE

Review & Action

Violation Type: Select violation type

Severity: Select severity

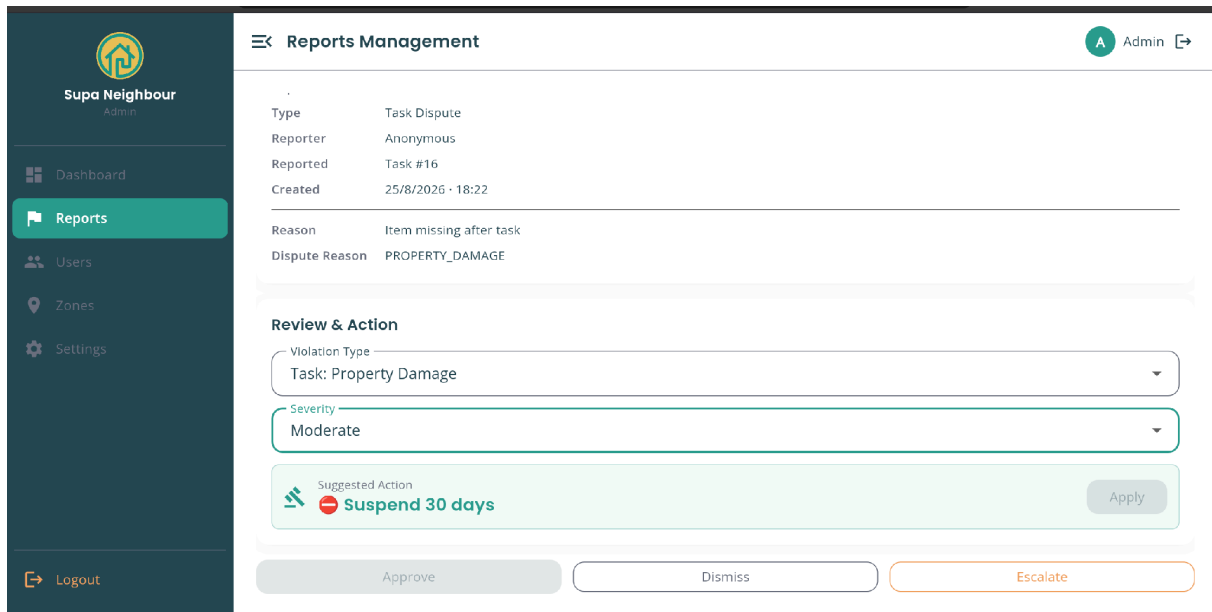

Approve Dismiss Escalate

Report detail before it has been assessed

Under Review & Action, the admin assesses the report by selecting:

- Violation Type — What kind of violation this is (e.g. Task: Property Damage)
- Severity — How serious the violation is (e.g. Moderate)

Once both fields are set, the system automatically calculates a Suggested Action based on the violation type and severity — for example, suspending the reported user for a set number of days.

The screenshot displays the 'Reports Management' interface in the Supa Neighbour Admin system. The left sidebar contains navigation links for Dashboard, Reports, Users, Zones, Settings, and Logout. The main content area shows details for a report: Type (Task Dispute), Reporter (Anonymous), Reported (Task #16), Created (25/8/2026 - 18:22), Reason (Item missing after task), and Dispute Reason (PROPERTY_DAMAGE). Below this, the 'Review & Action' section features two dropdown menus: 'Violation Type' (set to 'Task: Property Damage') and 'Severity' (set to 'Moderate'). A 'Suggested Action' box shows a red minus icon and the text 'Suspend 30 days', with an 'Apply' button. At the bottom, three buttons are visible: 'Approve' (greyed out), 'Dismiss' (greyed out), and 'Escalate' (highlighted in orange).

Report detail with violation type, severity, and the system's suggested action

11.3.3 Taking Action

From here, the admin chooses one of three actions:

- Approve — Applies the suggested action shown on the report
- Dismiss — Closes the report with no action taken against the reported user, post, task, or comment
- Escalate — Sends the report up to a higher-level admin for further review

Once one of these three buttons is selected, it is highlighted and the other two are greyed out — this locks in the decision and prevents the admin from accidentally applying more than one action to the same report.

11.4 Trust Graph (Endorsements)

The Trust Graph page lets admins see the endorsements that neighbours have given one another across the entire zone. Endorsements are the personal vouches described in Section 7.4, and this page gives admins a zone-wide view of them so that unusual or suspicious endorsement activity can be spotted and looked into. Open it by selecting Trust Graph in the sidebar.

11.4.1 Viewing Endorsements in the Zone

Trust Graph — zone-wide endorsement map and Zone Insights

The main area of the page shows the zone as a network map. Each circle is a neighbour, labelled with their name, and each line between two circles represents an endorsement connecting them. This makes it easy to see who is well connected and who is not.

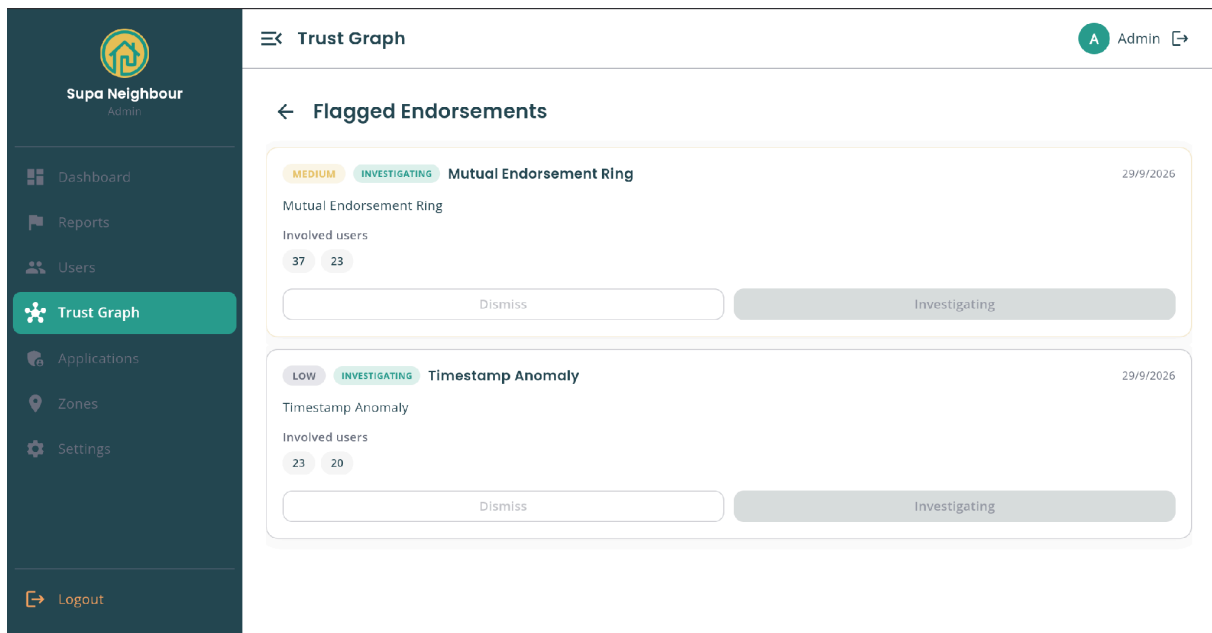

The Zone Insights panel on the right summarises the map:

- Clusters — The number of connected groups of neighbours in the zone
- Largest Cluster — The number of neighbours in the biggest connected group
- Isolated Users — The number of neighbours who have no endorsement connections

Below these figures, the View Flagged button shows how many endorsements the system has flagged for review (see Section 11.4.2).

11.4.2 Flagged Endorsements

Endorsements that look suspicious are flagged automatically so that an admin can review them. Select View Flagged on the Trust Graph page to open the Flagged Endorsements list. Use the back arrow at the top-left to return to the graph.

Flagged Endorsements list

Each flag appears as a card showing:

- Severity — How serious the flag is (for example Low or Medium)
- Status — Where the flag is in the review process (for example Investigating)
- Flag type — What was detected, such as a Mutual Endorsement Ring or a Timestamp Anomaly
- Date — When the flag was raised
- Involved users — The IDs of the users connected to the flagged endorsements

For each flag, the admin can choose to either Investigate it or Dismiss it.

11.4.3 Investigating a Flag

Choose Investigate when a flag needs a closer look before any decision is made. Selecting it marks the flag as Investigating, so other admins can see it is already being reviewed. The admin then looks into the involved users, using their IDs from the card to find them on the Users page and review their account information and activity.

Once a flag is set to Investigating, the buttons on its card are greyed out, in the same way as a decision on a report (see Section 11.3.3).

11.4.4 Dismissing a Flag

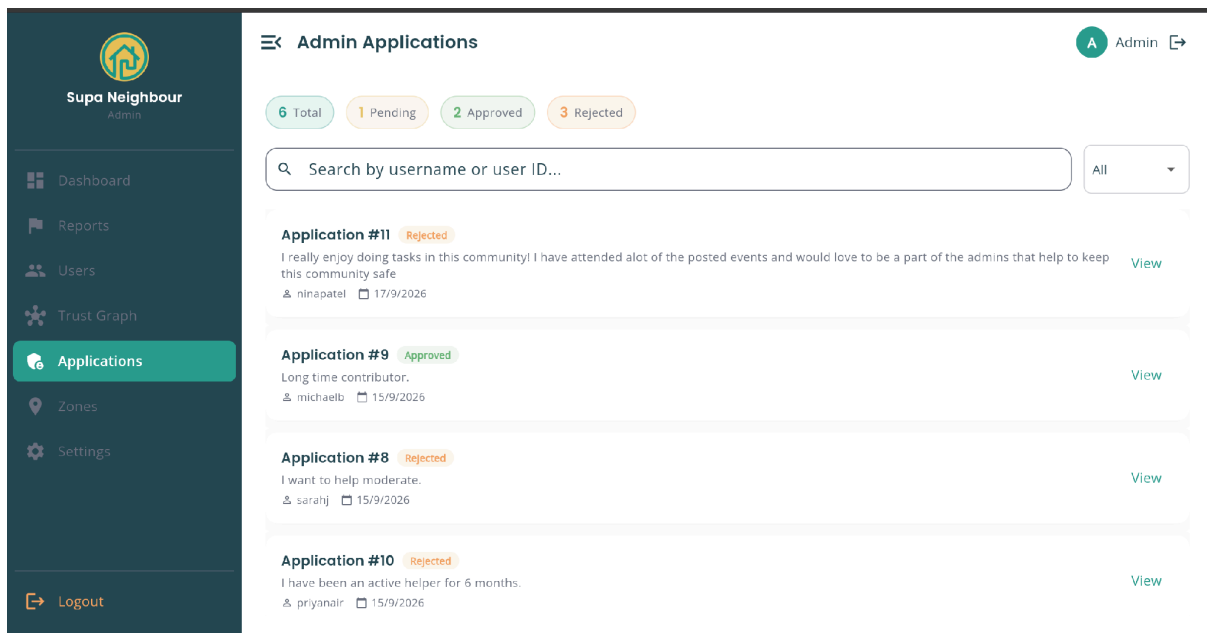

Choose Dismiss when the flag turns out to be nothing to worry about. Dismissing a flag removes it from the Flagged Endorsements list and no action is taken against the users involved.

11.5 Admin Applications

SupaNeighbour members who would like to help moderate the community can apply to become an admin. Members apply from their Profile screen (see Section 7.9), and the Applications page is where these requests are reviewed. Open it by selecting Applications in the sidebar.

Note: Only a super admin can approve or reject an application. Other admins cannot make a decision on an application.

11.5.1 Viewing Applications

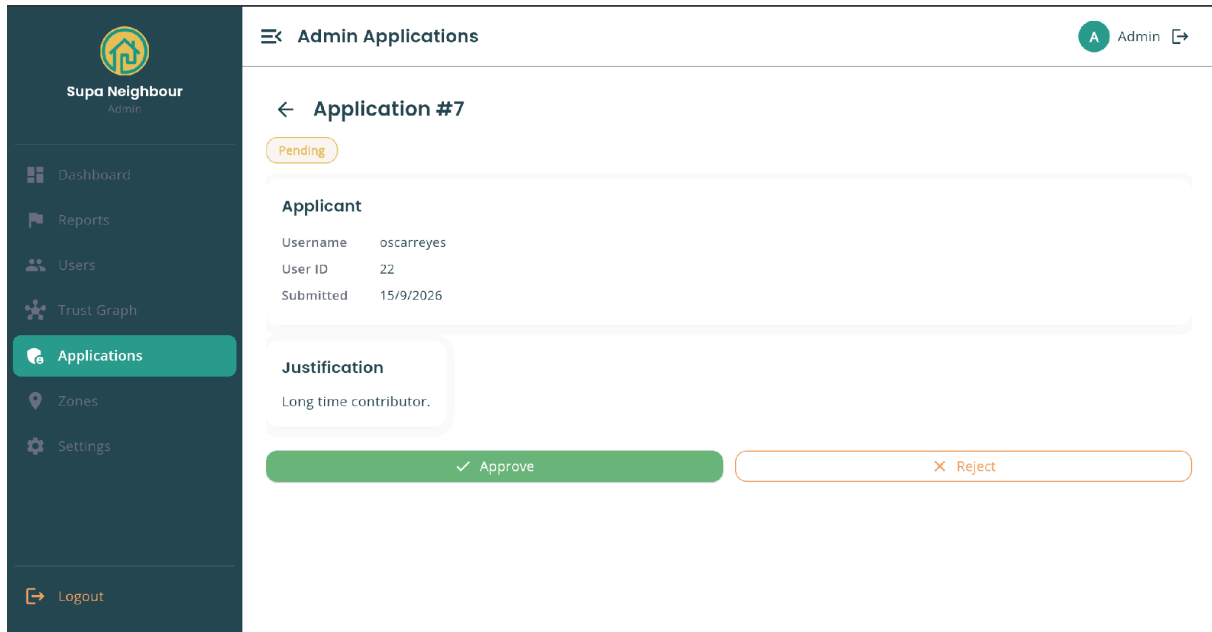

Admin Applications — application list

At the top of the page, summary counters show the Total, Pending, Approved, and Rejected number of applications. Each application appears as a card showing its number, its status, the justification the applicant gave, the applicant's username, and the date it was submitted. From here you can:

- Search — Use the search bar to find an application by username or user ID
- Filter — Use the dropdown on the right to show only applications with a particular status (the default is All)
- Open an application — Select "View" on any card to see its full details

11.5.2 Reviewing an Application

Application detail with Approve and Reject options

Opening an application shows its full details, along with its current status:

- Applicant — The applicant's Username, User ID, and the date the application was Submitted
- Justification — The reason the applicant gave for wanting to become an admin

Use the back arrow at the top-left to return to the application list.

11.5.3 Approving or Rejecting an Application

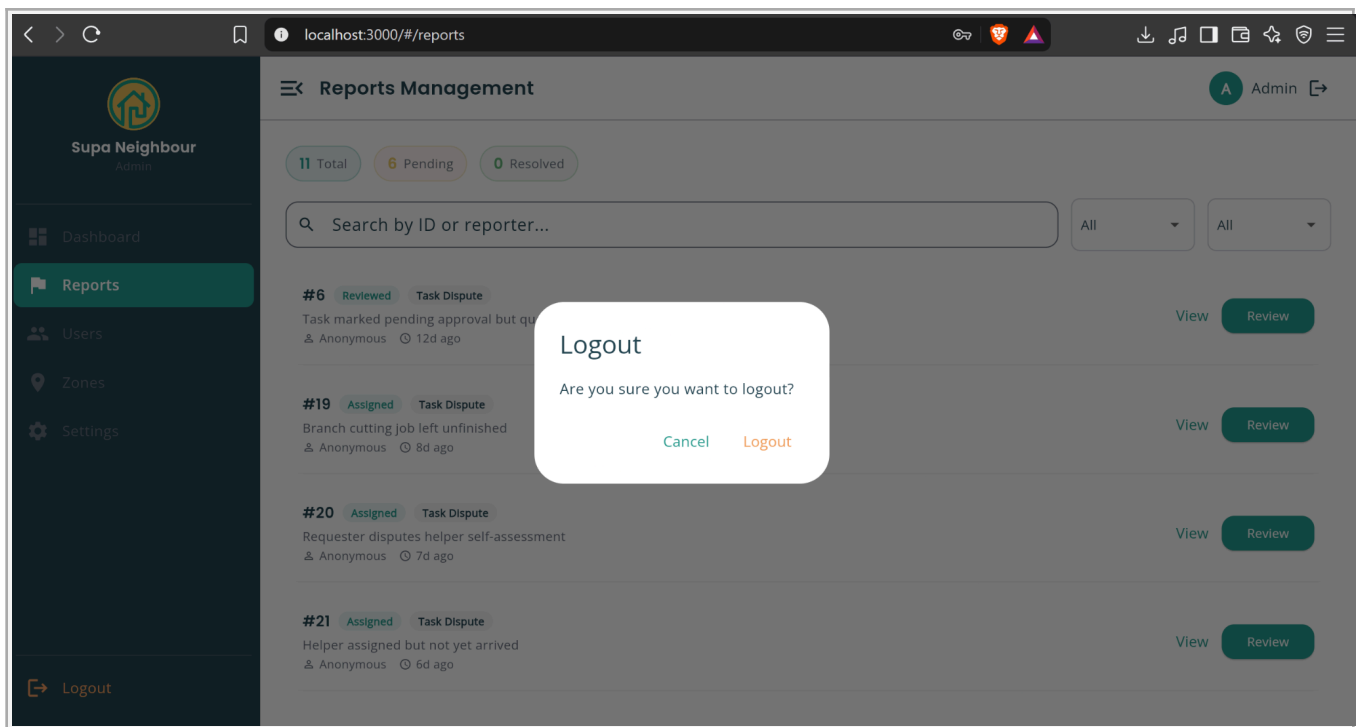

At the bottom of a pending application, a super admin chooses one of two actions:

- Approve — Accepts the application and grants the applicant admin access
- Reject — Declines the application, and the applicant is not given admin access

Once a decision is made, the application's status changes to Approved or Rejected and it can be found again in the application list using the status filter.

11.6 Logging Out

Admins can log out at any time using the Logout button in the bottom-left of the sidebar. Selecting Logout opens a confirmation prompt, letting the admin either Cancel and stay signed in, or confirm and Logout.

Logout confirmation dialog
