PROFILE

Computer science student well versed in both technology, IT,mathematics , graphics as well as the arts,music and writing. I bring a fresh perspective to complex and difficult to solve problems, I have been part of many teams acting in a leadership position and as just a group memeber. I am skilled in both backend archutercture and frontend graphic design.

PROJECTS

CAPTONE PROJECT 2026

Creating of an app built to strengthen community connections

- During this project, I acted as
- Database architect: creating the flow of information and optimising backend storage.
- Backend lead: Creating the infrastructure for the frontend built off

Other projects 2024-2026

- I have gained knowledge in both computer science skills and team dynamics through these smaller projects
- Community based project (JCP2020): this course built around giving back to the community. Learning how to gauge your audience and forms of communication
- Compiler construction (java): creation of lexer,parser and code generation
- Computer graphics(C++)

Stack Skills: 2023-ongoing

- in backend: Java, springboot,postgreSQL,MongoDB,Neo4J, Junit5, along with deployment in Azure,Docker,Github
- in fronted: React, TypeScript, Dart,firebase

EDUCATION

Bachelor of Science: Computer Science 2024-ongoing

University of Pretoria

GPA: 58.41%

Experience: 2018-ongoing

- Data organiser for an accounting firm
- Tutoring English, Mathematics, Information sciences and bussiness studies
